Our tranquil atmosphere, soothing aromas and calming sounds infuse all of our spa services, while our wellness team customizes your service to ensure a blissful retreat leaving you feeling vibrant, healthy and peaceful.

Here at the Pittsburgh Center for Complementary Health and Healing, we acknowledge and honor that, when a client is on our table, more is present than just their muscles, bones and organs. Clients carry with them their unique essence and life experiences, which have formed how they move and carry their bodies in the world. Our unique approach ensures that clients are supported on more than just a physical level, so that inner peace and healing can happen at the root cause of imbalance, rather than just at the level of symptoms.

In all of our sessions we provide a safe, inclusive environment where clients are free to experience a deeper connection with their body, mind, and spirit.

We acknowledge that each client's needs are unique, which is why at the Pittsburgh Center for Complementary Health and Healing we take the time before and after each session to thoroughly understand our client's individual health goals.

This dedication and passion for our work is truly what sets us apart from the rest.

Our skilled staff of Licensed Massage Therapists, Energyworkers, and Yoga Instructors provide empowerment and successful results leaving a lasting impression which our clients take into their daily lives.
